

PORTREATH PARISH

Neighbourhood Development Plan

A dedicated group of volunteers have been creating a plan to protect, sustain and enhance our parish since August 2017.

The plan comprises 16 policies that plan out the future for housing, design standards, heritage, environment and community.

But we need your help for this final, crucial stage.

Firstly, Thank You!

Over the last two years we've had:

300 Survey responses

170 Big conversations at the World Cafe event

300 Facebook friends

40 Events

70 Volunteers

All this support
created our

16

Policies

Vision for Portreath Parish

It also helped us to create a vision for the future of portreath Parish...

“ We will create a plan that supports the development of a vibrant and sustainable community for residents and businesses of Portreath. It will protect, sustain and enhance the Parish without compromising the environment for future generations.

”

From
October 12th to
November 23rd

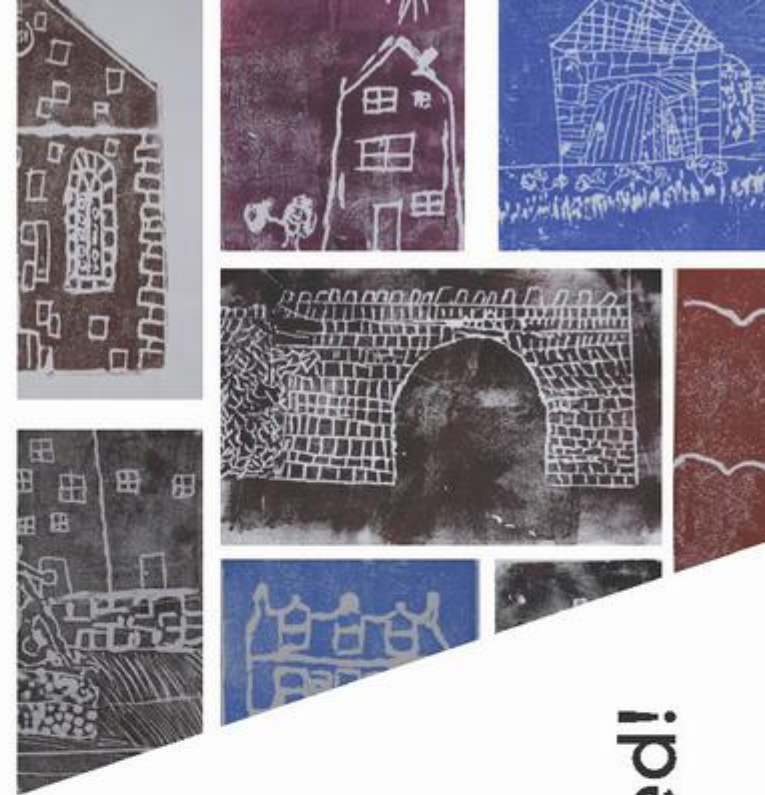

We want to hear your thoughts on the policies we have created.

Due to Covid-19 restrictions we cannot offer face-to-face chats but we have other methods in place so that you can still feed back to us. Including our new partnership with...

An online collaboration tool designed specifically for communities to feed back on Neighbourhood Development Plans. It will allow you to review the plan and the documents that justify and support each policy. You can then approve or disapprove of each policy and leave comments for the plan creators and the rest of your community to see.

We also have a website for you to discover more about the Neighbourhood Development Plan creation process:

www.portreathndp.org

Along with a telephone number if you wish to have a conversation about the plan:

07780828751

We have two zoom meetings planned at 7pm on the 26th of October and 2pm on the 11th of November to facilitate a Q and A about the plan. Please visit the website to find out more.

The policies

Primarily, our 16 policies are there to:

Plan for Affordable Housing

Strengthen community infrastructure

Maintain our environment

Promote biodiversity

Become a more sustainable and greener **community**
